Adrian Lemus

Front-end web developement
San Diego, CA 92105
Adrian.le1995@gmail.com
+1 760 697 2001

Hello my name is Adrian, I am a front-end web developer. I have been building my skills, mastering the fundamentals, concepts, and methods in CSS, HTML and Javascript as well as other technologies like CSS preprocessors "SASS" and frameworks like "Bulma". Also learning react.js, terminal commands, responsive web-design, grid and flexbox layouts, semantic HTML, basic animations, "singlepageapplications" .
I also use 2 programs for design and editing called "Affinity Designer" and "Affinity Photo".

I am currently seeking an Internship / apprenticeship or entry level job opportunity in front-end web development to gain relative experience and immerse myself into the field. I am currently working on Building my portfolio and other website projects(personal) .

Below I have included a GitHub link to a test site I completed. I have made progress and developed better code though this is all I have to show right now until I complete my other projects. ("https://carguygrammer.github.io/Coaltion-test/")

Experiencia laboral

Granite Fabricator/Installer

The Countertop Company - Escondido, CA
mayo 2017 - mayo 2020

I performed quite a few different responsibilities at the Countertop Company.
• polishing granite, quartz,etc material to be ready for installation
• residential and commercial installations as a helper
• delivery and pick up of company countertops and slabs
• fabrication and installation of corian Countertops
• forklift operation
• demolition of old countertops
• kitchen wood templating

Volunteer Work

Faithful Covenant Foundations - Escondido, CA
2012 - 2015

In my adolescences I volunteered for a non-profit organization performing task such as helping removing engines and rebuilding engines. Driving moving vans, delivery box trucks. As well some landscaping and painting projects. Volunteering there gave me some hands on experience and the satisfaction of helping others.
